EXPERIENCE

Regular Developer 02/2026 - Present
Toughlex
Development for modernization of Artea bank.

Regular Developer 04/2025 - 01/2026
Toughlex
Development and support for LT Tele2 self service portal.

Solution Developer 09/2023 - 04/2025
SEB

- Developed modern micro front-end applications and back-end RESTful APIs from the ground up.
- Implemented and maintained end-to-end SDLC processes, ensuring smooth development, testing and deployment.
- Managed CI/CD pipelines, ensuring streamlined deployments.
- Worked with cloud infrastructure, using Docker, Kubernetes, and OpenShift.
- Maintained and modernized legacy systems.
- Monitored application performance, proactively identifying, troubleshooting, resolving incidents to minimize downtime.
- Participated in planning, refining and estimating development tasks.
- Collaborated closely with a sister team, ensuring alignment on architecture, development practices and system integration.

Junior Solution Developer 08/2022 - 09/2023
SEB

Junior Developer 02/2022 - 05/2022
NRD Companies

- During my internship I contributed to the development of a Business e-Registry System.
- Work consisted mainly of bug-fixing and minor adjustments to the codebase.
- Worked as a part of an Agile team.

EDUCATION
